Beste sportvrienden,

Oktober 2018 zal in het vet genoteerd worden in de geschiedenisboeken van Herbots familie. Niet enkel en alleen omdat we in die maand onze nieuwe "Racing to 2019" aan het duivenliefhebberspubliek voorstellen maar ook omdat we op 3 oktober onze nieuwe op en top professionele website op het wereldwijde web gelanceerd hebben. De nieuwe website www.herbots.be bewijst dat wij er als één team volop voor gaan om de duivenliefhebbers dichter bij elkaar te brengen, dit zowel op informatief als op commercieel vlak.

Naast de digitale informatie publiceren we reeds meer dan 20 jaar de "Racing to" brochure. Een up-to-date collectors item dat geen voorstelling meer nodig heeft. Ook in de 2019-editie stellen gekende als minder gekende kampioenen hun toppers voor. Noteer nu alvast in uw agenda dat we in de maand juni 2019 een exclusieve internetverkoop organiseren waar we alle deelnemers van "Racing To 2019" de gelegenheid bieden om 3 jonge duiven, geboren uit hun toppers, te veilen.

Net zoals vorige jaren zal "Racing to 2019" op alle internationale beurzen GRATIS verdeeld worden door het Herbots team. Ook tijdens onze bezoeken aan buitenlandse klanten zal "Racing to 2019" met plezier voorgesteld worden. Belangrijk te weten is dat "Racing to 2019" in het Chinees vertaald wordt zodat de grootste handelsmarkt voor duiven perfect geïnformeerd wordt. Maar dat is nog niet alles... elke deelnemer zal gedurende een heel jaar met een publiciteit op onze druk bezochte website www.herbots.be worden vermeld alsook op de belangrijkste socialemediakanalen zoals Facebook, WhatsApp, Line, WeChat, daar wij als vooruitstrevend bedrijf continu werken aan het bereiken van een zo groot mogelijke doelgroep.

We wensen u veel leesplezier met "Racing to 2019" en staan steeds tot uw dienst om u te helpen met een eventuele aankoop/verkoop van duiven. We zijn de spreekwoordelijke brug tussen Europa, Azië en Amerika. Onze jarenlange ervaring is enkel een pluspunt voor u!

Filip, Miet en Jo Herbots

Dear sports friends,

In 2006 the pigeon Olympiad was organised in Ostend and now 10 years later, the 35th pigeon Olympiad will be held in Brussels. Friday the 27th, Saturday the 28th and Sunday the 29th of January the international pigeon world will gather in the beautiful and centralized halls 'Square' in Brussels. Call it as you please, but a pigeon Olympiad always has a special appearance. The international atmosphere is being enlightened even more on an Olympiad fair than during the other pigeon fairs and as always it is a nice gathering with our many pigeon friends with whom we've built up a good relationship during decennia.

This Olympiad means off course a wonderful opportunity to distribute our free, full colour brochure 'Racing to 2017'. Just as on many of the other international pigeon fairs and during the many visits to our foreign customers the Herbots team will enthusiastically introduce this edition of 'Racing to 2017'. We've already mentioned it before, but we'd like to emphasize that the brochure is being translated into Chinese integral, so the fanciers from China and Taiwan are being informed perfectly as well.

Also a word of thanks to the many international visitors to our website (www.herbots.com). Fanciers who like to follow up the sales of pigeons from close by can follow up the sales at fixed price as well as the sales by auction. Fanciers who love to read articles have found with www.herbots.com the website where you can read, the entire year through, the most articles from small and big champions online. Our colleagues try always to do their utmost best to make the articles instructive and to foresee them of many photo's.

We like to wish you a lot of 'reading-fun' with "Racing to 2017" and are always at your disposal to help you with a potential purchase/sale of pigeons. Let our experience, both in trade as in the pigeon game itself, be your ideal help.

Yours in sports,
Filip, Miet en Jo Herbots

COMED METHOD

For 35 years, Jean-Louis Jorissen has been warning the world of the dangers of abuse of antibiotics, through hundreds of lectures and seminars all over the globe. By now, he has sadly been proven correct. The pathogens have won and the antibiotic apocalypse has begun. Last year in November, Chinese scientists discovered pathogens in pigs and chickens which antibiotics are no longer effective. Even before the post-antibiotics era had begun, Comed had already found the solution.

industrial pharmacist
Jean-Louis Jorissen

A comprehensive insurance system for the whole season.

Our scientific research team, consisting of four pharmacists, in close collaboration with **Willem De Bruijn**, developed the **COMED METHOD** based on Darwin's principle: "Survival of the Fittest". This method will strengthen your colony, waives the preventive administration of antibiotics and, in combination with the use of **Curol**, **Winmix** and **Roni**, it offers better results.

Curol

The potent **Curol**, derived from **Comedol**, with its specific aromatics, is the ideal alternative to preventive antibiotics, using a dosage of 15 ml per kg of feed.

Winmix

In the amount of 15 grams per kg of feed, **Winmix**, as complete supplement of all vitamins, electrolytes, amino acids, prebiotics, yeasts, etc., will ensure condition through the optimisation of the metabolism.

Roni

The **Roni** formula is a new concept which, with the administration of 10 grams per 2 litres water, ensures an environment unfavorable for pathogens by releasing acids in the digestive system.

Noticeable results start from day one.

Stopmite

healthy pigeon lofts parasites - flying insects

Within actual temperatures of more than 25°C, parasites feel very comfortable. Many parasites can be present in and on the pigeon without even being noticed. An increased sensibility to all kinds of infections is often perceived.

The often unnoticed parasites (light shy/ photosensitive) excrete through their eggs substances that cause itching. This will tease our pigeons especially at night and in the morning they start the day still being tired. This leads to a considerable disadvantage of their physical condition and to feathers of poor quality. Therefore, the regular use of **Stopmite** is a good way to keep the infection opportunity as small as possible. It is advisable to scatter **Stopmite** on the floor and under the nest mats for an optimal result.

Stopmite may come into contact with the feather coat.

Stopmite does so much more than just dispel parasites!

- Supports the upper respiratory tract.
- It normalizes digestion.
- Avoids flat manure.
- Purifies the body.
- Delivers minerals.
- Ensures tidy feathers even around the cloaca (anus)...

Thiamin or vitamin B1 plays an extremely important role in the release of energy from sugars and fats and is therefore crucial for flight performance. It is the most underrated vitamin in the racing pigeon. A shortage of vitamin B1 results in a **lack of appetite**, causing muscle weakness and a loss of condition. Our pigeons are among the most sensitive species in regard to shortages of vitamin B1. In severe cases, they also get muscular pain, which can lead to crooked flying.

Appetose

appetite promoter

In proportion to her body weight, our racing pigeon needs 150 times more vitamin B1 as a human being!

Below we mention the main causes of a shortage of vitamin B 1 in our pigeons and thus the biggest causes of the decline of its condition during the flying season:

- Due to the increased production of inferior intestinal mucus (which is often the result of concentrated feed) the absorption of vitamin B1 may be insufficient.
- Also, intestinal parasites can prevent this absorption process.
- Cures with antibiotics kill the bacteria that are responsible for the own production of vitamin B1.

To resolve **the lack of appetite** due to a shortage of vitamin B1, COMED put **Appetose** on the market, an appetite promoter.

Appetose provides a better appetite.

- During breeding, especially after weaning when the youngsters have to develop their own immune system. At this delicate stage, a good appetite is of utmost importance.
 - Sometimes, a pigeon in top condition, can eat less during races.
- When you ensure that such pigeons continue to eat well, it is possible to upgrade their condition to an even higher level.

On our website www.comed.be you can find all products and their composition.

Brad Foster and Mike Taylor have had racing pigeons for years, and both held several positions at Club, Combine, and National levels. Over the years we have done our best to promote the sport of pigeon racing throughout our sporting communities.

We are excited to introduce our newest passion, the Canadian Pigeon International magazine, hatched on Canada's 150th birthday on July 1, 2017.

A publication dedicated to the sport of pigeon racing scheduled to be delivered to you the first of each month. Full of Canadian and international news and events, covering health, loft reports, one loft races, shows, sales and more!

Features in the Canadian Pigeon International magazine include video links and more!

Our feature scribes continue to grow and currently include Ad Schaerlaeckens, Chris Sutton, Gareth Watkins, Keith Mott, Paul Gregg, Rod Adams, Jimmy Hamilton, Dr John Kazmierczak, Dr Schroeder, Dr Tollisan, Dr Henk De Weerd, Jim Jenner, Joe Murphy, Philippe Martin, Dr Peter Boskamp, Dr Colin Walker, Dr Talabér Zsolt, Paul Miller, Mike Lakin, Les J. Parkinson - Elimar Pigeon Services, Dr. John Lamberton & Jeff Lamberton, Eddy Noel-Team Noel Willockx, Alex Bieche, Martin Steffl, Santiago Cruz, John Ghent, Terry Peart, Steven van Breeman, John Clements, Michael Feeney, Paul Dalton, Shane Langton, John Gladwin, Allister Black and Canada's Silvio Mattacchione.

We've been busy at the Canadian Pigeon International magazine, a monthly e-publication.

Flash Players will no longer be available in 2020, and this was an underlying reason why Brad Foster and Mike Taylor began looking for a better platform for present and future CPI magazines.

3DIssue offers us and our readers possibilities not even considered yet. Our magazines are safe and protected on Cloud, and we feel more confident about our product each day. The transition and transfer of files is now behind us, and we can now focus on future production services.

Interaction is very important to our growing audience, and we can now offer superior video & audio presentations.

Opening the magazines is easier and there is no downloading. Loading speed is no longer an issue and our read quality is no longer compromised.

We now boast over 22,000 American readers and a world-wide readership of 35,000. Our advertisers have an international reach as never before.

Our readership reach includes; Canada, Great Britain, Scotland, United States, Ireland, Australia, Netherlands, Italy, Mexico, Denmark, Philippines, Jamaica, Romania, Hungary, Malta, Argentina, South Africa, Portugal, France, Belgium, New Zealand. And the list keeps growing.

Complimentary magazines will remain on our website, and we will unveil subscription packages before the end of July 2018.

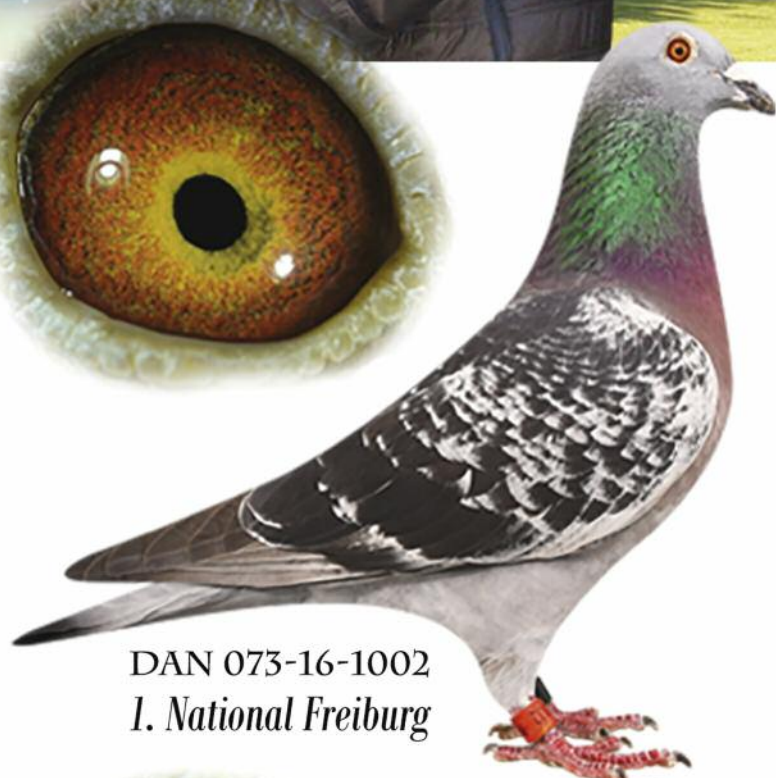

We hope you will continue to enjoy reading the CPI.

Thanks, Brad & Mike

Roger VEREECKE'S Loft

THE OLD BASE PIGEONS

The basic origins of Roger VEREECKE from Deerlijk (Belgium) are still very present at many Top Fanciers lofts all over the World.

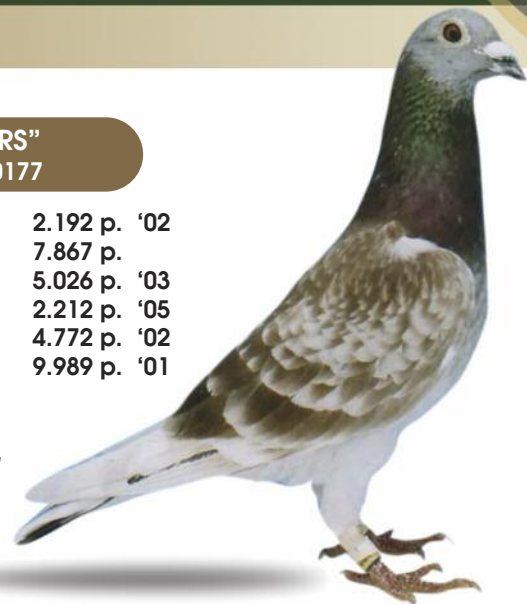

Since 2014, Georges-Henry Bodson cultivates this valuable golden blood.

The descendants from The Cahors, The Marseille, The Little Barcelona, The Gold Medall...etc. were crossed and re-crossed to obtain a Roger VEREECKE pure blood strain. In Belgium, the tandem Bodson G-H - Ancia B from Momalle realizes year after year more and more successful results.

BEYERS Galaxy mixtures

The system of the future

25kg

Multipurpose, complete and perfectly matched to the requirements of your pigeons. **Easy to use for achieving excellent results** during breeding, racing and moulting, these are the basic principles of our BEYERS **Galaxy** mixtures.

Mixtures that meet the requirements of the modern racing pigeon, which gets to withstand an ever increasing work load on a regular basis.

BEYERS Breeding Galaxy

- Multi-purpose mixture
- Combination of high protein content with high fat content: perfect growth of young pigeons with soft feathers.

Also ideal for pigeons played on the natural system.

| | |
|---------------|-------|
| Carbohydrates | 53,7% |
| Crude protein | 16,9% |
| Crude fat | 7,4% |

BEYERS Sport Light Galaxy

- Easily digestible and highly energetic sports mixture, ideal for flights of < 400 km
- Basis of paddy-dari-safflower supplemented with 4 different types of maize, fat-rich seeds and grains
- Perfect balance of proteins, prevents a slump after some 7 flights

| | |
|---------------|-------|
| Carbohydrates | 54,2% |
| Crude protein | 12,5% |
| Crude fat | 10,9% |

BEYERS Sport Energy Galaxy

- Extremely rich in fat and proteins (without peas), ideal for the last feeding times before the basking of flights of > 400 km
- The peeled sunflower seeds in this mixture (10%), very rich in fat, help the pigeon in eating sufficiently
- 6 different types of maize meet the requirement of carbohydrates, 9 different types of seeds and grains meet the increased requirement of fats

| | |
|---------------|-------|
| Carbohydrates | 43,1% |
| Crude protein | 16,4% |
| Crude fat | 16,1% |

BEYERS Long Distance TT Galaxy

- Perfect mixture for high burden, flights with several nights in the basket and overnight flights. Ideal for filling the reserve tank after strenuous efforts.
- Contains 40% maize (4 types: cribbs maize, Plata maize, Merano maize and Bordeaux maize)
- Last days before the basketing, possibly in combination with a high fat mixture (Elite Enzymix MS Energy, Sport Energy Galaxy or Premium Super Energy)

| | |
|---------------|-------|
| Carbohydrates | 58,1% |
| Crude protein | 12,8% |
| Crude fat | 7,2% |

BEYERS Moulting Galaxy

- Ideal balance of nutrients with sufficient crude fibres so that the pigeons do not become fat and bulky.
- Composed of 27 different ingredients: 4 types of maize, raw materials for essential proteins, amino acids and many small fatty seeds which promote moulting and ensure perfect new feathers

| | |
|---------------|-------|
| Carbohydrates | 51,8% |
| Crude protein | 15,2% |
| Crude fat | 8,6% |

LANCKRIET LUDO EN RUBEN

Top racing results on long distance

Veterinarian Ruben Lanckriet and his father Ludo have been building a new racing team after their move to Adegem (Belgium) in 2014. A clear long-term breeding strategy - assisted by quality gene DNA testing - combined with a simple, but effective training and racing method is resulting in top classifications.

Champions choose Habru

For more info look at the photobook on: www.habruduivensport.co.uk

SPUTNIKS

Habru Sputniks;
Developed by and for champions

Since the introduction of Habru Sputniks into pigeonsport 'floppy construction sets' are a thing of the past. Habru developed an innovative product with best quality, which was inspired by champions.

With a break-proof glazing and long-welded connections Habru's Sputnik excels in solidity. Furthermore all models are suitable for every electronic system of clocking. The Habru Sputnik emerged with credit – pigeonsport practiced at the highest level is unthinkable without Habru!

AVIARIES

Habru Aviaries; Long-lasting and functional Made-to-measure work

Habru aviaries make a difference because of their long-lasting character! A result of welding the modules and using a higher quality type of wire mesh than other aviaries. No wonder Habru aviaries took control in the pigeon market. The Habru aviaries satisfy every wish of the pigeon fanciers and has been designed by experts.

Because the composition of the aviaries can be completely adapted to the wishes of the customer, made-to-measure work is guaranteed! This is the reason why Habru aviaries are more and more regarded as a replacement of traditional pigeon lofts.

AVIARIES

Type fly-in and out

Habru model fly-in and out;
Simple and functional

An aviary and sputnik in one – that is the Habru model fly-in and out. The pigeons fly to the front of the aviary and directly land upon the sputnik, which is integrated into the sloping roof. The sloping roof makes it hard for pigeons to sit on it. For that reason we developed the sputnik as a landing-platform. In this way no time is wasted.

M&C Hansen

One of the best Van De Wouwer colonies in the World!

The breeding loft of M&C Hansen is based on the fantastic pigeons from Gaston Van De Wouwer!

During the last seasons other families have been introduced with success. These pigeons have now for 7 seasons made a huge difference on the loft of M&C Hansen and their friend and partner Henrik Meldgaard. Pigeons are raced from 2 different locations in the country and the two lofts have achieved in average about 25 x 1st prizes EACH YEAR and won many championships in the sections. 2016, 2017 and 2018 have been incredible!

The present strains in the loft are a.o.:

- GASTON VAN DE WOUWER • DIRK VAN DYCK • STEFAAN LAMBRECHTS • JOS DE KLAK • LOUIS VAN LOON

“Team GPS

builds his own pigeons strains”

Ype Hemstra & Lex de Jongh

For years this combination get pigeons from all top fanciers in the Netherlands and abroad.

Here they bred and played with and only the best were allowed to stay. According to them, selecting heavily is the only way to the top. They now have their own “strain” that leads to many successes. Both in their own lofts and also by other fanciers, they make great results with pigeons of Team GPS

The basic pigeons come from the following fanciers:
Gust Jansen - Leo Heremans - Jan Hooymans – J. & Tj. Elzinga - Arie Dijkstra

Top references with “Team GPS” pigeons:

1. National Ace Pigeon WHZB-TBOTB 2018
 M. & M. Kramer, Wormer (gr. son of “Inbred Harry”, Team GPS)

1. + 2. NPO at the lofts of Comb. Hoffman-Regtop, Den Helder

DYNASTY lofts

Derek Walsh

First introduced to Dynasty Lofts from Patrick in the form of an inbred daughter of Sagan in 2014. Here at Dynasty Lofts we have since been fortunate enough to complement our existing Patrick Boeckx lines with a complete, proven team of directs that contain the first 2 sons of Sagan ever sold anywhere in the world and the first 2 full brothers to Sagan sold anywhere in the world. This opportunity only became possible due to the retirement from racing of the original purchasers and we can only thank them for choosing to put their trust in us by giving us the chance to buy them despite multiple opportunities to sell them elsewhere.

Those who know the history of Patrick Boeckx and Sagan, will appreciate that Sagan is a 2012 latebred and he became 1st National Asduif Snelheid KBDB as a yearling. Both of these sons and full brothers were ordered after Sagan won the final race to place him prime candidate for the Provincial and National Asduif title, before any championships were announced. These 4 cocks were later complimented by direct daughters De Strik, Boonen & daughters from son of 4000 & Di Caprio from Patrick. These 8 direct producers are directly responsible for many top performances up to 25,000 pigeons both pure and when coupled with partners direct from Dirk Van den Bulck and Stefaan Lambrechts. Following their arrival here at Dynasty lofts they were given time to settle in and have settled well enough to produce fabulous specimens that are being held back for our future use at stock.

Since I returned to the sport in 2014 Dynasty Lofts have won 1st Prizes at club with many 1st Federations as well as 1st National, also breeding winners and producers of winners for friends in Ireland and the UK. We will continue to race at Club, Federation and National level to ensure our pigeons are fully tested by ourselves, rather than leaving it to others to obtain results on our behalf. Once we have reared our race team children from our breeding team will be available for interested fanciers in 2019.
